Write an introduction to an informative and factual blog post titled "The Science Behind Why Some People Want To Become Vegetarians". If you're looking for something that will scare you throughout your whole body and your mind, The Conjuring 2 is the film for you. Released April 10th of this year, The Conjuring 2 is a follow up to the original film of the same name that was released in 2013 (the third movie in the series was released last week). With James Wan returning as director and co-writer with Chad Hayes and Carey W. Hayes and starring Patrick Wilson and Vera Farmiga, the film follows the story of a young nun and her four children who were terrorized by a demonic spirit. The movie was instant hit when it debuted in 2013, and we're expecting another hit this time around. If you want to be scared by what's inside you, check out The Conjuring 2 when it drops in your city today!

Write an article on "Why People Need to Escape Reality". Everyone wants to escape reality sometimes. It's hard to think everything is going well when we're constantly getting good news from all over the country. Sometimes it's easy to stay in our day-to-day busy lives, and we need to escape. For some people, horror movies and/or horror books can help them escape reality and stop them from worrying about the things in their life. If you like to be terrified by what is going on outside your window and what you can't see, The Conjuring 2 is a great way for you to enjoy that fear of being scared. It's a good feeling when you're watching the film and realize that the scariest thing in your life is sitting right in front of you!
